

**Project : Medro Medicine App****Prepared By:** Kartik Banik Shishir**Date:** 15 October, 2025

---

**New Requirements**

1. **Home Page Design Customization**
    - Add shuffle functionality in Trending Products section.
  2. **Invoice Update**
    - Product names to be listed in **A–Z serialization**.
  3. **Today's Order Page Enhancement**
    - Orders to be displayed with **Company Name serialization (A–Z)**.
  4. **Inventory Page Update System**
    - Add direct update option for **New Price, Purchase Price, and Quantity** from the front page.
  5. **One Device Login Permission**
    - Restrict account usage to a single device at a time.
  6. **Mobile App Notification System**
    - Store and display notifications within the app.
  7. **App Bar Update**
    - Add WhatsApp number in the app bar for quick access.
  8. **Bottom Navigation Bar Customization**
    - Remove Shortcut Menu.
    - Add **Company Menu** with company search functionality.
- 

**Old Corrections**

1. Fix issue with **Recommended Product stock out**.
  2. Resolve **Filter by Company** issue in product search.
  3. Ensure **Canceled Products** do not appear in **Today's Orders** or **Pending Orders**.
  4. Ensure **Customer Cancel Requests** also do not appear in **Today's Orders** or **Pending Orders**.
-

**Total Project Cost 20,000 BDT**

**Delivery Timeline 30 Working Days**

**Payment Terms:** 100% Advance before starting the work

**Best Regards**
